

# saving in the NEIGHBEEHOOD

Welcome to the NEIGHBEEHOOD! An original savings game concept by 2 Sister Bees created to help you stay motivated to play and save as a team. Every other Saturday at 1PM EST a new video will be released on our community YouTube channel

**YOUTUBE.COM/@NEIGHBEEHOOD**

## FREEBEE PLAY

On the next page, the same card is repeated 4 times (for printing ease). Play 1 card per round.

On a separate piece of paper, create a tracker for each round with the following:

**Round 1, 2, 3, & 4:** You will need to mark which round you played.

**Beat Queen Bee:** This is your wager if you will get a bingo before the Queen Bee does. Place a wager for both a win or loss.

**Each Bingo:** This is your wager for each traditional bingo you get on your card. A traditional bingo is 5 across any row, diagonal, horizontal or vertical.

**Each Dab:** This is how much you will save for every single dab (mark) you make on each game card you play per round. These can really add up!

Then add them up after each round or after you've watched the video to see your savings total!

Want a full game packet with a savings tracker, more game cards and dashboards?
